

## Gallery - Kitchen

Here is a completely rebuilt kitchen. All drawer bottoms are ¼" almond colored melamine (no more shelf paper required), all shelving in the upper cabinets is solid oak with almond colored laminate on the upper side (again no more shelf paper), all upper shelving is adjustable, all lower shelving consists of pullout trays with melamine bottoms, self closing no-slam under-drawer drawer slides, and many other features too numerous to mention. The finish is semi-gloss lacquer.

The kitchen cabinets include dovetail joinery for all the drawers, raised panel units for all exposed cabinet ends and a mantle shelf over the cooktop.
